

Hemo bioscience™
The science in Blood Banking

QUALITY CONTROL FOR REAGENTS

Hemo bioscience is pleased to offer the DailyChek QC Kit and IgG Control Cells manufactured by the American Red Cross Diagnostic Manufacturing Division.

American Red Cross (ARC) DailyChek QC Kit is used to perform quality control testing of blood bank reagent red blood cells, anti-human globulin (AHG) reagents and potentiators. It consists of Positive and Negative Controls used to evaluate reactivity with A1, A2, B and O reverse grouping and antibody detection reagent red blood cells. Additionally, the positive control can monitor the performance of potentiators.

American Red Cross (ARC) IgG Control Cells are used for control of the antiglobulin test performed with anti-human globulin (AHG) reagents containing anti-IgG. Control Cells are used to confirm the efficacy of the AHG reagent in the direct or indirect antiglobulin test.

PRODUCT NAME	DESCRIPTION	PRODUCT CODE	PRODUCT SIZE
DailyChek QC Kit	QC for red cell reagents	H9500	Pos 2 x 7.5 mL Neg 1 x 10 mL
Control Cells (10 pack)	IgG control cells	H9100	10 x 10 mL
Control Cells (3 pack)	IgG control cells	H9030	3 x 10 mL

FEATURES & BENEFITS

DailyChek QC Kit

- Ready to use
- Consistent approach to quality control
- Daily quality control for reagent red blood cells, AHG reagents and potentiators

IgG Control Cells

- 2 year expiry from date of manufacture
- Provide strong reactions yet still detect partial neutralization of AHG reagent

HEMO BIOSCIENCE COMMITMENT TO SERVICE

CUSTOMER SERVICE

Hemo bioscience offers you flexible ordering options by fax, phone or email. To assist you in inventory management, we can set up standing orders or blanket orders. Most products are available for immediate overnight shipping. We develop, manufacture and inventory products in our facility, located in the heart of Research Triangle Park, North Carolina.

TECHNICAL SUPPORT

Hemo bioscience technical support is staffed by professional, qualified technologists who have donor center, immunohematology reference laboratory and transfusion laboratory experience; we understand your challenges in the laboratory. We have two fully operational immunohematology laboratories on site with qualified staff who can resolve product questions and guide you in deciding which products fit your needs.

QUALITY POLICY

Hemo bioscience strives to provide our customers with products and customer service that meet or exceed their expectations. We have established a comprehensive Quality Management System which provides a framework for measuring and improving our performance based on FDA CFR 21 part 820 standards, and we are ISO 13485 accredited. We have systems and procedures in place to support us in our goal of ensuring our customer requirements are met.
